

Saluting Cannon “Al-Khaleej”

State receptions, royal birthdays, on the occasion of Ramadan celebrations, public holidays, commemorations, traditional events, etc. On a wide variety of occasions, the importance of the event is underlined and highlighted with gun salutes. They are without exception blank shots without a projectile, which merely produce a report, possibly in conjunction with smoke.

Both the Saluting cannon and Saluting cartridges do not have any offensive or defensive capability.

The Al-Khaleej is our largest most impressive and most decorative cannon.

The design can be adapted to individual customer requirements like colour of the barrel and timber gun carriage.

The barrel can be manufactured with calibre 75 or 88 mm (25 pdr.).

It is even possible to engrave elaborate logos into the barrel or on to the gun carriage.
