- Calibres 75 mm, 25 pdr (88mm), 105 mm
- No smoke – less pollution of the cannon
- Precious appearance
- Transport classification 1.4C for shipment by air-freight
- NATO-registered

State receptions, royal birthdays, on the occasion of Ramadan celebrations, public holidays, commemorations, traditional events, etc: On a wide variety of occasions, the importance of the event is underlined and highlighted with gun salutes. They are without exception blank shots without a projectile, which merely produce a report, possibly in conjunction with smoke.

Product Description

The customer has the choice of **three calibres** and two different shell casing materials. Our saluting munition fires **smokeless**, which is a great advantage in the maintenance of the gun. In addition, the shooting place does not become smoke-logged after firing multiple shots. If desired, we can also produce munitions with coloured smoke.

Saluting cartridges product range with primary packaging (cardboard container)
